

Theberton Speed Monitor 2 March 2017 to 18 April 2017 Report

The speed indicator device has been operational for four ~20 day periods since 20th December 2016. It is placed at one end of the village or other at ~30 day intervals.

This report summarises the findings from the last two periods within the above report period. Further graphs and information are published in the parish council minutes.
